Hello James;

I am working on the FJ Doyle Salvage Site in Leonard, TX and I am curious if the Agency has worked out an arrangement with our cleanup contractor, Environmental Restoration, or have paid them for outstanding invoices. I have not heard anything about any resolution and therefore am concerned that my job may be interrupted which would severely impact the cleanup of the residential properties and the site. Any informational updates that can be provided are very important to me. I know the contractor is having meeting with their management on a regular basis and as far as I know they have not heard anything either.

Thanks
